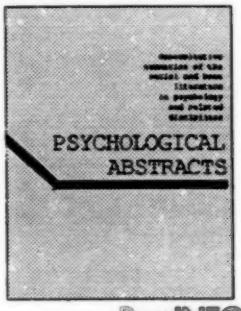
Nonevaluative summaries of the serial and book literature in psychology and related disciplines

PSYCHOLOGICAL ABSTRACTS

VOLUME 80, AUTHOR INDEX I



JANUARY–DECEMBER 1993

PSYCHOLOGICAL ABSTRACTS® IS OPENING A NEW CHAPTER!

Now a single print product gives users access to chapter, book, and journal information from all areas of psychology and related disciplines.
APA's *Psychological Abstracts (PA)* brings users nearly 3,000 journal abstracts every month and NOW includes book chapter and book information*. Both psychologists and librarians have reported that they want the convenience of having a single source for ALL of the information available from books, book chapters, and journals. That's why chapter and book summaries are included in the monthly issues of *PA*.**

PA gives your users an overview of research in psychology and related fields, sums up articles from over 1,300 English-language journals and over 1,500 books annually, shows everything that's new in a given specialty, and much more!

Don't miss out on psychology's richest resource on current literature! *PA* is priced at $1,245 per year for institutions. Well worth it for over 3,750 journal and book abstracts per month!

For more information, write to:
American Psychological Association, 750 First Street, NE, Washington, DC 20002-4242,
or call: 800-374-2722. In Washington, DC call 202-336-5650.

Psychological Abstracts...

- reports advances appearing in journals and books that may not be read on a regular basis
- enables users to pick up main ideas at a glance by highlighting the key points in a given document
- saves research time by virtue of *PA* complete bibliographic data for all citations
- and lets users find what they need in a hurry with its reader-friendly indexes for each month and year.

* This book-related material previously appeared separately in *PsycBOOKS*.
** Summaries in *PA* will continue to be grouped by subject classification, as well as now by source: SERIAL, BOOKS, and CHAPTERS. We've retained the style which *PA* subscribers find most efficient, and integrated the strengths of the former version of *PsycBOOKS*.

PsycINFO®
INFORMATION SERVICES IN PSYCHOLOGY

PsycINFO, a family of interrelated information services, provides access to the literature in psychology and related behavioral and social sciences in a variety of ways. *PsycINFO* consists of:

Psychological Abstracts (PA) journal (ISSN 0033-2887). The comprehensive monthly compilation of nonevaluative summaries of the serial and book literature in psychology and related disciplines.

Issue. The monthly PA issues contain entries listed under 22 major classification categories, with some categories having subsections, as shown in the Table of Contents. Under each classification heading, the records are arranged alphabetically by first author, and are numbered consecutively each year. The volume contains approximately 45,000 records.

Indexes. An author, brief subject, and book title index appear in each monthly issue. An expanded and integrated annual index is published at the end of each volume.

PsycSCAN®: Clinical Psychology, Developmental Psychology and Applied Psychology. Quarterly publications containing abstracts from subscriber-selected journals in the areas of clinical psychology, developmental psychology, and applied psychology, respectively.

PsycSCAN: Applied Experimental & Engineering Psychology. Quarterly publication containing abstracts in the area of applied experimental and engineering psychology.

PsycSCAN: LD/MR. A quarterly publication containing abstracts on learning disabilities, communication disorders, and mental retardation.

PsycSCAN: Neuropsychology. A quarterly publication covering the clinical and human cognitive experimental areas of neuropsychology.

Psychoanalytic Abstracts. Formerly PsycSCAN: Psychoanalysis. Quarterly publication containing abstracts in the area of psychoanalysis.

PsycBOOKS: Books & Chapters in Psychology. An annual five-volume compilation (ISSN 1044-1514) of information on books and chapters in psychology and related disciplines covering 1987- 1990.

The Thesaurus of Psychological Index Terms® 1991. A compilation of the vocabulary used in psychology and related disciplines as generated from the files of PA.

PsycINFO User Manual® 1992. Developed for the individual researcher of the information available from PsycINFO services, whether through use of the printed PA issues and indexes or by computer-assisted search of the database.

PASAR® (PA Search and Retrieval). Retrospective search and retrieval services available through the PsycINFO office.

PsycINFO® Database. Magnetic tapes of PsycINFO records to institutions for annual lease or license. Designed for use by information analysts and dissemination centers, the PsycINFO database is also used for direct interaction by individuals through a computer terminal in their own facilities. This service is available through several dissemination centers throughout the world.

PsycLIT®. A CD-ROM product containing PsycINFO citations and abstracts published between 1974 and the present. PsycLIT includes English-language summaries and citations from over 1,300 journals published from 45 countries. Updated quarterly.

For more information on the above products, uses, and costs write to PsycINFO, American Psychological Association, 750 First Street, N.E., Washington, D.C. 20002-4242.
Psychological Abstracts is printed on acid-free paper. Printed in the U.S.A.

Psychological Abstracts (ISSN 0033-2887) is published monthly for $1245 domestic, $1290 foreign (APA member price $622) by the American Psychological Association, 750 First Street, N.E., Washington, D.C. 20002-4242. Second-class postage paid at Washington, D.C., and additional mailing offices. **Postmaster:** Send address changes to **Psychological Abstracts**, 750 First Street, N.E., Washington, D.C. 20002-4242.

1993 COVERAGE LIST

The PsycINFO Coverage List includes journals and other serial publications that are scanned regularly, abstracted selectively, and included in *Psychological Abstracts (PA)*, PsycLIT, and the PsycINFO database. In cases where a journal publishes articles only in languages other than English, the abstracts for these journal articles will be included in the PsycLIT and PsycINFO database, but will not appear in *Psychological Abstracts*. A dagger (†) after the title indicates this occurrence. For journals that publish articles both in English and in other languages, only the abstracts of the English language articles will be included in *PA* while both English and non-English language articles will appear in PsycLIT and the database.

The presence of a serial title in this list does not imply that all articles contained in issues of that serial will subsequently appear in PsycINFO's databases or print products. Journals likely to publish articles relevant to behavior are included for a regular systematic scan of their content. Articles are specifically and individually selected for their relevance to psychology.

Whenever possible, publisher name, address, frequency of publication, and ISSN are included for each publication to facilitate access to original documents by users. The date in parentheses indicates the publication year of the first issue scanned by PsycINFO of a particular serial. Asterisks within parentheses indicate that coverage began with the first issue of publication. An N/A after an ISSN indicates that the number was not available. Bold type identifies those jounals that published articles appearing in this volume year.

This Annual Author Index contains over 90,000 references to the authors and editors of approximately 45,000 abstract records published in the 12 monthly issues of *Psychological Abstracts* from January 1993 through December 1993. A companion work, the Annual Subject Index, references these records by topic.

In this volume, all the authors and editors whose work was abstracted or cited in *Psychological Abstracts* for the periods indicated are listed alphabetically by surname. However, the Author Index is intended to be a name index only and not a person index. "Adams, P." will be listed separately from "Adams, Paul," even though the names may refer to the same person. Two listings for "Adams, P." may also refer to two different authors. Due to variation in the representation of names that exist in source documents, alternative locations should be consulted. As many as four authors may be listed per selection. If there are more than four, the fourth author is followed by "et al." Primary entries consist of author name(s), the title of the selection (if foreign), a citation of the original source document, and the *Psychological Abstracts* abstract number under which the entry appeared. All secondary authors are cross-referenced to the primary entry, and the abstract number in *Psychological Abstracts* is printed as well.
